

Information session

You can find out more about this project directly from Network Rail representatives at a **drop-in information session**

Drop-in information session

Village Green at Churchfield Green, off Churchfield Way

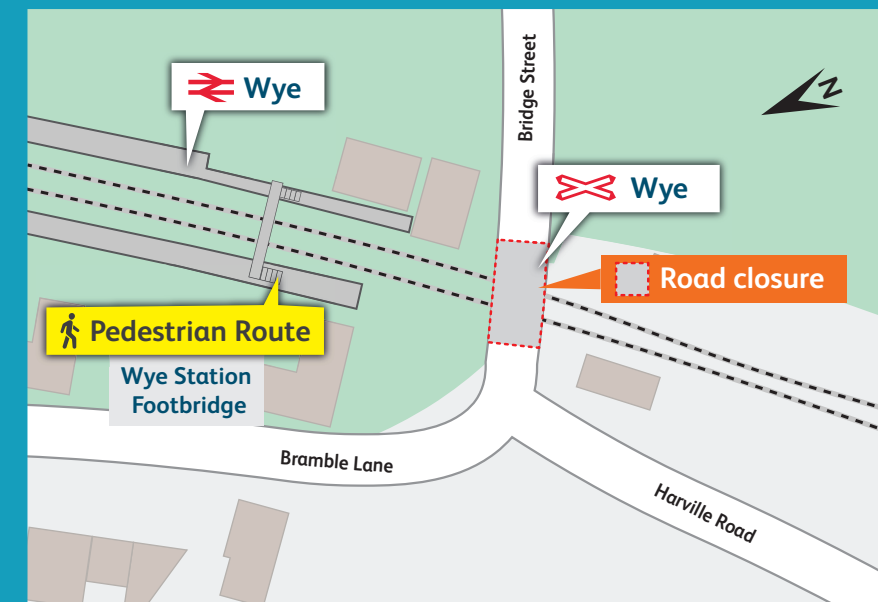

09:00 to 12:00 - Saturday 5th November 2022

Road and rail closures

There will be ten road closures, with seven taking place during November and the final three in December 2022.

There will also be rail closures, if you are planning to travel during this time, your journey may be impacted. Please check before you travel at www.nationalrail.co.uk

The works will take place during both the day and night.

Shuttle Bus Service
will be provided to assist
pedestrians around the route.

Road closure information

The works are subject to Station Road being closed on seven occasions in November and a final one between 3rd December and 19th December 2022 with a diversionary route/traffic management in place. The works will also include road surfacing repairs and painting of yellow box lines.

November 2022							December 2022

Wye Level Crossing Upgrade

Works being carried out during
November and December 2022

What are we doing at Wye level crossing?

Network Rail are committed to continuing to provide a safe and reliable railway for Britain.

As part of this commitment, upgrade works will be carried out at Wye level crossing.

A new Manually Controlled Barrier CCTV Level Crossing will be introduced on 19th December 2022.

The new Level Crossing will be operated by the Signallers at the Canterbury Wye Area Control Centre.

What are the changes

- ✓ The changes will improve user safety, as audible sound from the yodels will alert users when a train is approaching.
- ✓ The new level crossing will improve traffic and pedestrian flow and reduce the time Station Road is closed to vehicles and pedestrians.
- ✓ A more reliable and modernised crossing will be easier to maintain and have a simpler interface with the local highways.
- ✓ New road traffic lights and CCTV cameras will be installed, and appropriate measures will be put in place to mitigate any noise impacts.

When will the works take place?

-  **A** 2200 Saturday 5th to 0600 Monday 7th November 2022
Weekend - Full road closure with no vehicular access over the level crossing.
-  **B** 2200 Saturday 12th to 0600 Monday 14th November 2022
Weekend - Full road closure with no vehicular access over the level crossing.
-  **C** 2200 Monday 14th to 0600 Tuesday 15th November 2022
Night - Full road closure with no vehicular access over the level crossing.
-  **D** 2200 Saturday 19th to 0600 Monday 21st November 2022
Weekend - Full road closure with no vehicular access over the level crossing.
-  **E** 2200 Monday 21st to 0600 Tuesday 22nd November 2022
Night - Full road closure with no vehicular access over the level crossing.
-  **F** 2200 Saturday 26th to 0600 Monday 28th November 2022
Weekend - Full road closure with no vehicular access over the level crossing and limited train service during these times.
-  **G** 2200 Monday 28th to 0600 Tuesday 29th November 2022
Night - Full road closure with no vehicular access over the level crossing.
-  **H** 2200 Saturday 3rd to 0600 Monday 5th December 2022
Weekend - Full road closure with no vehicular access over the level crossing and limited train service during these times.
-  **I** 2100 Monday 5th to 0600 Thursday 15th December 2022
Nights Only - Full road closure with no vehicular access over the level crossing and some train service affected during these times.
-  **J** 2200 Friday 16th to 0600 Monday 19th December 2022
Weekend - Full road closure with no vehicular access over the level crossing and limited train service during these times.
