

Year 1 Curriculum Newsletter Summer Term 1.

Dear Parents and Carers,

Please have a look at our class curriculum for the coming term...

English:

This term, we will continue on our exciting Curious Quests. We will read lots of fantastic books and find out what happens to our Faithful Friends. We have been left on a cliff-hanger in our notes from Professor Klunk and are excited to find out what happens next and to write lots of codes to help! Our books include a range of fiction and non-fiction.

Maths

This term will be a busy one! We shall be looking closely at multiplication, division and fractions. The children will investigate and compare groups, revisit their addition and subtraction knowledge and be introduced to the terms half and quarter.

Science

This term, in science, we will continue to monitor and record the weather, to ensure our planting projects are successful! We will continue to investigate the conditions needed for growing and see in real time how much care is needed for plants and animals.

History

We will learn all about different forms of transport throughout the ages. We shall look at boats, trains, cars and planes, delving into their history and notice changes and similarities. The children will learn about safety and how this has evolved throughout the years. This will also be explored through projects in DT too.

RE:

We have an exciting term ahead in R.E, exploring and comparing different traditions from around the world.

PSHE:

We will explore what it means to be sun safe, and how to look after our bodies from the inside. The children will learn about **Article 24**, The Right to Health Care.

Music:

The children will sing, keep a beat, explore rhythm and pitch, and use percussion to create music, developing confidence and enjoyment in performing and listening.

Computing:

We will explore creating a story on computers and taking photographs and videos with our iPads.

Art:

In Art, we shall be printing! This is a wonderful topic for the children to learn, and we shall be creating 2 class banners to celebrate the learning.

Design Technology:

In DT this term we shall be looking closely at how wheels of all shapes and sizes move. Please keep bringing in your recycling boxes and bits as we will hopefully be making our own moving vehicle!

PE:

This term, we will have two PE sessions per week with our specialist teachers. The children will focus on Athletics and Target Games with Miss Fuller.

If you have any questions at all, please speak to us after school or via email.
The Year One Team

This term, PE will take place on **Tuesday and Thursday** afternoons. Children should bring their **named** PE kit, consisting of shorts, joggers, trainers, t-shirt and jumper, in at the start of term and leave it at school; we will send it home if it needs a wash. As always, it would be fantastic if waterproofs and wellies could also stay at school, allowing children to enjoy outdoor learning in all weather!
